

FOR IMMEDIATE RELEASE

MARCH 19TH 2013

The Synthetic Orchestra releases '*Super Metroid Symphony*' - an orchestral homage to Nintendo's classic 'Super Metroid' soundtrack

'*Super Metroid Symphony*' (Joypad Records), orchestrated by the acclaimed Blake Robinson Synthetic Orchestra is an hour long, 30-track symphony dedicated to the iconic music from Nintendo's classic video-game title, '*Super Metroid*'.

Watch the trailer here "<http://bit.ly/11bBqYN>" (Approved to post)

Every second of music from the original game has been lovingly recreated using an ultra-realistic, virtual orchestra and the latest audio software. "*Super Metroid Symphony*" builds on Kenji Yamamoto & Minako Hamano's original soundtrack and delivers the symphonic experience that this classic score deserves.

The album's release coincides with the 19th Anniversary of '*Super Metroid*' and is available in DRM-Free MP3 or FLAC format from Loudr: <http://blake.so/supermetroid> (approved to post) and iTunes: <http://blake.so/supermetroiditunes> (approved to post). More information and a full preview of each track can be found on the album's website: <http://metroidorchestra.com> (approved to post).

'*Super Metroid Symphony*' follows the BRSO's well received '*Video Game Orchestrations Volume 1*' and contains 30 pieces of music based on the original in-game soundtrack.
